Dear Tenants

We are anxious to provide you with a solid Christmas hut for the Christmas market. To ensure that this remains so in the future and to avoid unnecessary stress and costs, we ask you to read the following terms of use carefully and to observe them.

Terms of use Christmas Wood Cabin

As a tenant, you are obliged to return the Christmas wooden cabin in a clean and undamaged condition!
Necessary repairs and cleaning at the time of return will be charged to the tenant.

Please make sure that you take over the Christmas wooden hut in perfect condition.
If you notice any damage or contamination of the rented property, please report this immediately to the market management.

Sawing out, piercing, cutting, tacking or otherwise damaging the hut is not permitted.

Make sure that there is no damage caused by heat and fire to the Christmas wood cabin. Open fires/sparks and equipment that damage the hut are strictly forbidden.

Do not hang heavy or dangerous objects on the roof bracing.

Foodstuffs such as wine, ketchup, mustard and other colour-fast substances must not come into contact with the tarpaulins. If such stains do occur, they must be removed immediately and without residue. The use of solvents and aggressive cleaning agents is prohibited. Instead, use warm water and, in difficult cases, washing-up liquid.

We kindly ask you to take care when manoeuvring your car at and around the hut.

We thank you for your understanding and wish you a successful event.
