Important Notes:

The lessee is not entitled to assign or sublet the agreed stand rental space to third parties. The contract must be kept on site during the event in case of inspection. Furthermore, the lessee undertakes to affix an owner's sign. The lessee hereby expressly undertakes to offer only the contractually agreed range of products.

Set-Up, Dismantling, Traffic

Set-Up work, dismantling and traffic on the festival area is prohibited during the opening times and is only possible within the specified periods.

Operation of the stand

The unique atmosphere of this festival should be developed further. Therefore, we ask you to design your stand colourful and original with much love! It

is not permitted to set up garden pavilions, party tents and pasting tables. The use of monochrome market umbrellas is only permitted after prior agreement.

Playing or performing music is expressly prohibited. This is reserved for the stages and Music Corners. Stand operators who do not adhere to these conditions will not be refunded the following agreed security deposit of €500, which in this case remains with the organizer as an agreed and then due contractual penalty and will be excluded from participation in the street festival for three years (see also article 2 of the General Terms and Conditions).

Stand Numbers

In addition to the invoice number, each stand operator/participant also receives a stand number (independent of the invoice number). This number will be communicated with the entry ticket and the stand sign after payment of the invoice. This stand number can be found within the stand marking on site.

Depth of the Stand/ A-Boards/ High Tables

The possible total depth of the stands, including all (also temporary) constructions, depends on the respective location and is clearly indicated on site by a marking line. For locations on the pavement, the kerb (unless otherwise agreed) forms the front edge of the stand. Beyond this marking line or the

kerb, there may at no time be any constructions or uses of any kind by the stand operators/ lessees. This means, for example, for Blücherstraße (on the central reservation) and on Waterloo-Ufer (canal side) that the maximum stand depth, including all constructions, may only be 3m. Contraventions on site will result in exclusion from the Street Festival.

Power/ Water

With his signature, the stand operator undertakes to bring the following utensils, provided that he has registered his power/ water requirements:

1. Water supply line: water hose, 50m, with $\frac{3}{4}$ inch thread connection (GEKA), KTW and DVGW W270, food safe
2. Water drainage: sewerage hose, 50m
3. Power supply: extension cable, for outdoor use, 50m

Liability Insurance

Every stand operator is obliged to take out liability insurance for any damage for which he himself is responsible and to keep it available for inspection on site.

Event safety

With his signature, the stand operator undertakes to keep a tested **ABC fire extinguisher (6 kg)** ready at his stand and, if deep fat fryers/woks, liquid

gas systems, charcoal grills or open fires are operated, to keep an appropriate fire extinguisher ready as well (e.g. ABF fat fire extinguisher). Deep

fryers with a capacity of more than 50 l are not permitted. The filling capacities of adjacent units (distance <60 cm) are added together.

Good Order, Tidiness, Waste

The lessee shall set up suitable waste bins in the immediate vicinity of his stand. He is responsible for emptying them regularly and for cleaning adjacent areas.

There are waste centres for each participant close to the stand areas, where the packaging waste produced must be disposed of separately by material. In the waste centres there are bins for cardboard and paper, for bottles and jars, for plastic waste and a general waste bin. These bins are emptied once a day. You can find the waste centres on your map with a blue **M | Müll**. Additionally, yellow bags for plastic waste and blue bags for cardboard and paper are provided at the stands, which can be used for pre-sorting.

Sustainability

The "Carnival of Cultures" has set itself the task of making the organization and performance of the street festival and street parade as environmentally friendly as possible. In order to achieve the set goals of sustainability, the requirement to use reusable crockery or palm leaf crockery will again be enforced this year for all traders and all types of food without exception. Please read the attached additional information!

If you need returnable cups/ dishes, use e.g. Co. Cup Concept or others.

If you need palm leaf tableware/ wooden cutlery, only use products from Co. Leef.

All PET bottles and glass bottles sold by arrangement at the festival must be deposited. No plastic drinking straws may be used.

Miscellaneous

To cover violations of the stand operator/ lessee against regulations in articles 2, 11 and 12 of the General Terms and Conditions, as well as in case of

soiling or damage to rental stands and pagoda tents, the organizer charges a deposit of €500. In case of violation of the regulations in article 2

(prohibition of music/ voice amplification with own loudspeaker system), article 11 (returnable cups, palm leaf crockery and wooden cutlery) or article

12 (requirement of proper stand cleaning and waste disposal), this deposit remains with the organizer in the full amount of €500 as an agreed and then

due contractual penalty.

In case of that the stand operator/ lessee violates several conditions/ articles 2, 11 and 12 of the General Terms and Conditions, the organizer can

demand a contractual penalty of €500 for violations of each of these three articles, i.e. up to a maximum of €1,500 in total, from the stand operator/

lessee, against which the deposit is then to be offset.

In case of compliance with the requirements of the three articles, the deposit will be returned to the stand operator/ lessee no later than 14 days after

the end of the event.

Organizer of the Street Festival for the "Carnival of Cultures" is Piranha Arts AG.

KETERING GmbH oversees renting the stands and supporting the traders/ participants. Following this registration, the information provided will be

checked and, in case of admission, the invoice will be issued in the name of the organizer.
